

AAC WESTKING

CWRS WHEAT

AAC Westking is a high-performing CWRS wheat combining reliable yield potential, excellent standability and sprouting tolerance with large kernel size and a strong overall disease package.

Quick Facts

Availability	Available
Yield	102% (AAC Brandon)
Maturity	0 days (AAC Brandon)
Protein	-0.1% (AAC Brandon)
Height	82 cm
Lodging	VG

Why It Stands Out

- **Reliable yield potential**
- **Very good standability**
- **Very good sprouting tolerance**
- **Large seed size**
- **Strong disease package**

Our Experience

We have consistently seen AAC Westking deliver strong yields on our farm and have been especially impressed with its excellent standability and sprouting tolerance. Its large kernel size and seed weight also appear to contribute to its overall plant health and performance in the field.

Considerations

- Stripe rating: I
- Lower protein than AAC Brandon (-0.1%)
