

UA BRYNN

CPSR WHEAT

UA Brynn is a very high-yielding CPSR wheat combining excellent standability with a strong disease package and good harvestability.

Quick Facts

Availability	Available
Yield	115% (AAC Brandon)
Maturity	+2 days (AAC Brandon)
Protein	-1.6% (AAC Brandon))
Height	79 cm
Lodging	VG

Why It Stands Out

- **Very high yield potential**
- **Very good standability**
- **Strong disease package**
- **Good harvestability**

Our Experience

UA Brynn is a promising CPSR variety with very high yield potential. We especially like its strong disease package, standability and good harvestability.

Considerations

- Lower protein than AAC Brandon (-1.6%)
- FHB rating: I
- Lighter seed weight
- Later maturity (+2 days vs. AAC Brandon)

UA BRYNN

Published Agronomic Characteristics
