

ESMA

FEED BARLEY

Esma is a high-yielding feed barley combining very good standability, large seed size and a short, strong straw.

Quick Facts

Availability	Available
Yield	110% (AAC Synergy)
Maturity	+3 day (AAC Synergy)
TKW	51 g
Height	69 cm
Lodging	VG

Why It Stands Out

- **Exceptional yield potential**
- **Very good standability**
- **Short, strong straw**
- **Large seed size**
- **Loose smut resistance**

Our Experience

We've had good experience with Esma on our farm and especially appreciate its strong yield potential, standability and overall field performance.

Considerations

- Later maturity (+3 day vs. AAC Synergy)
- FHB rating: I
- Scald rating: S
- Spot blotch rating: MS
- Spot form rating: MS
- Net form rating: MS
