

ACC CHROME

YELLOW PEA

AAC Chrome is a high-yielding yellow pea combining good standability, strong seed quality characteristics and excellent harvestability.

Quick Facts

Availability	Available
Yield	109% (CDC Amarillo)
Maturity	M (Medium)
Protein	~1.2% (CDC Amarillo)
Standability	3.6
TSW	240 g

Why It Stands Out

- **High yield potential**
- **Good standability**
- **Strong seed quality characteristics**
- **Strong nitrogen fixation**

Our Experience

We appreciate AAC Chrome's strong balance between yield and protein, combined with excellent harvestability and strong seed quality characteristics such as reduced bleaching, seed coat damage and dimpling.

Considerations

- Medium maturity
- Lower protein than CDC Amarillo (~1.2%)
- Fusarium root rot rating: I

ACC CHROME

Published Agronomic Characteristics

Yield	109% (CDC Amarillo)
Maturity	M (Medium)
Protein	-1.2% (CDC Amarillo)
TSW	240 g
Standability	3.6
Mycosphaerella Blight	3.8
