

CDC HUSKIE

GREEN PEA

CDC Huskie is a high-yielding green pea combining strong standability, a strong disease package and good seed quality characteristics.

Quick Facts

Availability	Available
Yield	113% (CDC Limerick)
Maturity	M (Medium)
Protein	~2.7% (CDC Limerick)
Standability	3
TSW	220 g

Why It Stands Out

- **High yield potential**
- **Strong standability**
- **Good Mycosphaerella blight tolerance**
- **Good seed quality characteristics**
- **Strong nitrogen fixation**

Our Experience

CDC Huskie has consistently delivered strong yields on our farm, and we've been especially pleased with its harvestability, strong disease package and seed quality characteristics, including resistance to bleaching and seed coat damage.

Considerations

- Medium maturity
- Lower protein than CDC Limerick (~2.7%)
- Fusarium root rot rating: MR

CDC HUSKIE

Published Agronomic Characteristics

Yield	113% (CDC Limerick)
Maturity	M (Medium)
Protein	-2.7% (CDC Limerick)
TSW	220 g
Standability	3
Mycosphaerella Blight	3.4
Fusarium Root Rot	MR
Bleaching	G
Seed Coat Breakage	G
Dimpling	G

Rating Legend

MR = Moderately Resistant · G = Good
