

DOSIS

FABA BEAN

Dosis is a faba bean combining earlier maturity, excellent standability, large seed size and strong nitrogen-fixing ability.

Quick Facts

Availability	Available
Yield	92% (Fabelle)
Maturity	-2 days (Fabelle)
TSW	521 g
Height	106 cm
LVC	Yes

Why It Stands Out

- **Early maturity**
- **Excellent standability**
- **Strong nitrogen fixation**
- **Smaller seed size**

Our Experience

Our on-farm experience with Dosis has been stronger than the published comparison suggests. We've found it to perform similarly to Fabelle for both yield and maturity, while offering smaller seed size and higher protein traits valued by growers and the market.

Considerations

- Lower published yield than Fabelle (92%)

DOSIS
