

AC MORGAN

MILLING OAT

AC Morgan is a high-yielding milling oat combining strong standability with the flexibility to serve more than one market.

Quick Facts

Availability	Available
Yield	105% (CS Camden)
Maturity	+3 days (CS Camden)
TKW	42 g
Height	105 cm
Lodging	VG

Why It Stands Out

- **Strong yield potential**
- **Very good standability**
- **Market flexibility**

Our Experience

AC Morgan has consistently delivered strong yields and standability on our farm. We also appreciate its market flexibility as a safeguard against shifts in growing conditions and markets.

Considerations

- Later maturity (+3 days vs. CS Camden)
- Loose smut rating: I
- BYDV rating: MS

AC MORGAN

Published Agronomic Characteristics

Yield	105% (CS Camden)
Maturity	+3 days (CS Camden)
