

CDC ANSON

MILLING OAT

CDC Anson is a high-yielding milling oat combining short, strong straw, very good standability and strong smut resistance.

Quick Facts

Availability	Available
Yield	102% (CS Camden)
Maturity	+2 days (CS Camden)
TKW	41 g
Height	88 cm
Lodging	VG

Why It Stands Out

- **Strong yield potential**
- **Short, strong straw**
- **Very good standability**
- **Smut resistance**
- **Beta-glucan**

Our Experience

CDC Anson has consistently delivered strong yields, short, strong straw and excellent harvestability on our farm.

Considerations

- Later maturity (+2 days vs. CS Camden)
- BYDV rating: MS
