

AAC WALKER VB

CWRS WHEAT

AAC Walker VB is a high-yielding, midge-tolerant CWRS wheat combining short, strong straw with very good standability and a solid disease package.

Quick Facts

Availability	Available
Yield	102% (AAC Brandon)
Maturity	0 days (AAC Brandon)
Protein	-0.2% (AAC Brandon)
Height	84 cm
Lodging	G

Why It Stands Out

- **Reliable yield potential**
- **Midge tolerance**
- **Short, strong straw**
- **Very good standability**
- **Solid disease package**

Our Experience

From our experience, AAC Walker VB has been a dependable and easy variety to work with, consistently delivering strong yields while providing the added confidence of reliable midge protection and a solid disease package.

Considerations

- Lower protein than AAC Brandon (-0.3%)
- Lighter seed
