

# CS BREADWINNER

## CWRS WHEAT

CS Breadwinner is a high-yielding CWRS wheat with very good standability, strong stem rust resistance and improved Fusarium head blight resistance.

### Quick Facts

|              |                      |
|--------------|----------------------|
| Availability | Available            |
| Yield        | 102% (AAC Brandon)   |
| Maturity     | 0 days (AAC Brandon) |
| Protein      | 0% (AAC Brandon)     |
| Height       | 83 cm                |
| Lodging      | VG                   |

### Why It Stands Out

- **High yield potential**
- **Very good standability**
- **Midge tolerant**
- **Strong stem rust resistance**
- **MR to Fusarium Head Blight**

### Our Experience

CS Breadwinner adds a strong combination of yield potential, standability and disease resistance to our CWRS lineup.

### Considerations

- Average protein relative to AAC Brandon
- Intermediate leaf rust resistance
- Moderately susceptible to stripe rust
