

CS RECOIL

CPSR WHEAT

Recoil is a high-yielding CPSR wheat combining short straw, very good standability and stripe rust resistance with a strong balance of yield and protein.

Quick Facts

Availability	Available
Yield	103% (AAC Brandon)
Maturity	0 days (AAC Brandon)
Protein	-0.4% (AAC Brandon)
Height	79 cm
Lodging	VG

Why It Stands Out

- **Strong yield potential**
- **Very good standability**
- **Short straw**
- **Stripe rust resistance**
- **Strong yield-protein balance**

Our Experience

Our experience with CS Recoil has been very positive, consistently delivering a strong balance of yield and protein that provides valuable marketing flexibility and helps reduce exposure to price fluctuations.

Considerations

- Lower protein than AAC Brandon (-0.4%)
- Bunt rating: MS
- FHB rating: I

CS RECOIL
